- Hyperextended hand (dorsiflexion)*
Adduct towards little finger
Abduct towards thumb
- Digits (phalanges)
 - Metacarpal (distal) transverse
 - Distal (heart) line
 - Head line
 - Thenar (life) line
 - Head of first metacarpal
 - Longitudinal arch
 - Thenar eminence
 - Carpal (proximal) transverse
 - Hypothenar eminence
 - Scaphoid appendage
 - Pisiform bone

Raphael Sanzio (1483-1520)

Hand as long as inner, lower arm

- Ear rotated backwards, behind center line
- Mastoid process
- Platysma covering throat
- Mandible

Triangle deeper when arm forward

Pectoralis attached to clavicle

Scapula

Trapezius

Clavicle (collar bone)

Acromion process

Greater tuberosity over socket

Deltoid furrow

Clavicular part of pectoralis major

Inside clavicle less pronounced when arm forward

Tendon of extensor digitorum

Francois Boucher (1703-1770)

Arm in pronation

Lateral head of triceps

Dip at triceps muscle/tendon junction

Olecranon process of the ulna (elbow)

External condyle of humerus (furrow when extended)

Ulnar furrow

Styloid process of the ulna (higher than radius)

Abductor of the little finger

Arm in supination (radius and ulna parallel)

Styloid process of the radius

Supinators

Extensor of the thumb

Flexor carpi radialis

Palmaris longus

Flexors

Interior condyles of the humerus

Biceps tendon softens angle

Brachialis (cushion)

Inner head of triceps

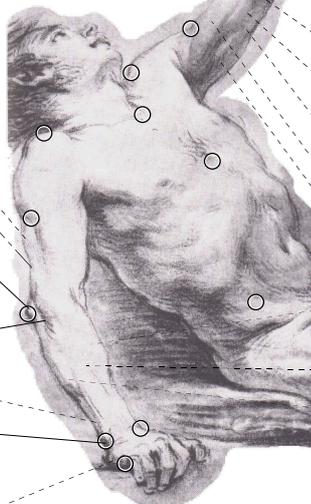

Biceps

Long head of triceps

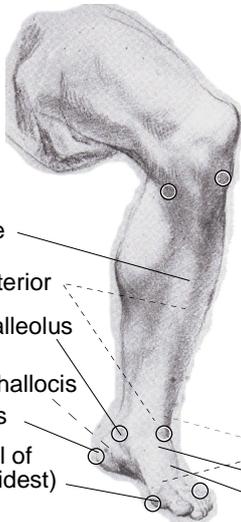

Supinator (1/2 forearm)

Extensors

Flexors

Francois Boucher (1703-1770)

Tibia bone

Tibialis anterior

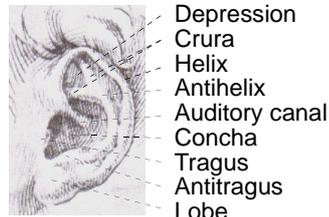

Medial malleolus (ankle)

Abductor hallucis

Calcaneus

Metatarsal of big toe (widest)

Domenichino (1581-1641)

Michelangelo

Orbicularis oris (around)

Cupid's bow

Commissural furrow

Triangularis

Depressor labii inferioris

Mentilabial furrow

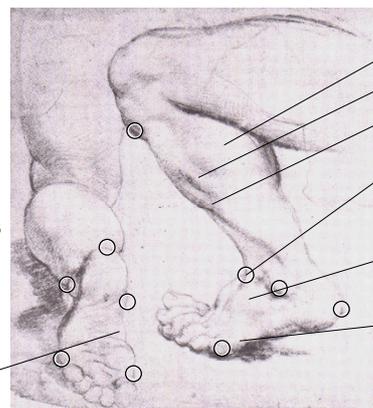

Lorenzo di Credi (1458-1537)

Extensor hallucis longus

Astralogus (talus) bone

Navicular bone

Abductor hallucis

Peter Paul Rubens (1577-1640)

Gastrocnemius

Soleus

Peroneus longus

Extensor digitorum longus

Extensor digitorum brevis

Abductor digiti minimi

Foot as long as outer, lower arm

Frontal eminence

Currogator

Nasal eminence

Nasal bone

Orbit at 1/2 head

Zygomatic bone

Tear bag

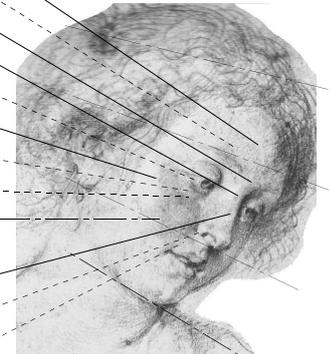

Infrapalpebral furrow

Back of nose in line with bottom of cheek bone & ear

Nasal cartilage

Ala (wing)

Nasolabial furrow

Peter Paul Rubens

Face line

Thyroid cartilage, Adams apple (larger for men)

Thyroid gland (larger for women)

Mental protuberance (chin)
